

Recertification Procedures

The Mike Molino RV Learning Center certified individuals must be recertified every five years. The expiration date is printed on your certificate. In order to maintain your certification status, you must submit all paperwork before the date your certification expires.

Recertification

Application Requirements

- Mike Molino RV Learning Center certified individuals must complete the entire recertification application and attach proof of training. Please make sure to include a home address.
- Payment must accompany the application if using the testing method without training.

Employment Requirements

- Prove your continuous (less than 1 year off) employment in the industry since your previous certification date. Employment verification must include the dates of employment, company name, company's complete address and telephone number.
- If you left the industry for more than one year, you must restart the entire certification process and retake the certification test.

Recertification Fees/Test method (without training):

Recertification candidates are encouraged to engage in continuous training and professional development activities. If a candidate is unable to meet the 40 hour training requirement, they may 'test-out' by meeting the current certification requirements, and taking the certification exam.

- \$249.00 Recertification Fee for parts managers and service managers who do not meet the training requirements, have left the industry for more than one year, or have let their certification expire. Must re-take the certification exam and pass to become certified.
- \$199.00 Recertification Fee for parts specialists, service writers/advisors, and warranty administrators who do not meet the training requirements, have left the industry for more than one year, or have let their certification expire. Must re-take the certification exam and pass to become certified.

Recertification Fees/with training:

- \$75.00 Recertification Fee with verification of continuous employment for the past five years and proof of attending at least 40 hours of industry-sponsored training over the five years of the certification period with 50 percent of the training received in the last three years (the last three years of certification).

Training Requirements

- Have proof of your continuing education consisting of at least 40 hours of industry-sponsored training over the five years of the certification period.
- The following are examples of sources for training and professional development:
 - Mike Molino RV Learning Center training workshops
 - RV Dealers International Convention/Expo educational tracks
 - Supplier/distributor schools and/or correspondence courses
 - Manufacturer training
 - State association training
 - Training offered by the Mike Molino RV Learning Center faculty

We view proof as documentation from the company or institution that provides the continuing education. Training verification must include the dates of training, course name, total number of 'contact' hours for each course, provider of training course, address and telephone number.

All testing fees described in this document are current; however, testing fees are subject to change without notice.
